Clinic News

Thanks to parents who have turned in your child's updated shot records. Feel free to mail or fax (281-284-3805) your child's updated shot record. Parents of students entering high school in the fall will need to provide the high school nurse with updated records after June 4, 2010 and before student class schedules are handed out.

If you have received a referral letter regarding your child's failed hearing or vision screens, positive spinal screens, or positive acanthosis nigricans screens, please notify me after you child has been medically evaluated.

If you need assistance obtaining school clothes for your child or assistance with vision and hearing medical evaluations due to a failed school screening, please contact me as soon as possible.
